WWW Bold Profile

I am a Developer and Project Coordinator at Nexr.dev with expertise in Next.js and Figma. I specialize in bridging the gap between client requirements and technical execution using mind maps for project planning. With a strong background in building responsive web applications and managing complex system environments, I focus on delivering clean, user-centric solutions.

Skills

- **Project Workflow Optimization**
- **Client Relationship Management**
- **Strategic Planning & Mind Mapping**
- **Technical Problem-Solving**
- **Cross-functional Team Collaboration**
- **Requirement Analysis & Gathering**
- **Adaptability in Dynamic Environments**
- **Goal-Oriented Project Execution**
- **Self-Directed Technical Learning**
- **Interpersonal & Communication Skills**

Experience

2021-01 - 2026-02

Project Coordinator & Technical Lead

Nexr.dev / Self-Employed (Store Owner), Remote

- **Project Planning & Execution**: Lead project workflows by creating detailed mind maps to organize tasks, ensuring clear execution paths and timely delivery of technical solutions.
- **Client Relationship Management**: Served as the primary point of contact for clients, managing requirements, gathering feedback, and translating business needs into technical specifications.
- **UI/UX Design & Development**: Collaborated with teams to design user-centric interfaces in **Figma** and implement responsive layouts using **Next.js** and **React.js**.
- **Technical Problem Solving**: Analyzed and resolved complex logic and system issues within various software environments, optimizing performance based on user testing.

- **Team Supervision**: Supervised a team of 3 members, distributing workloads effectively and supporting daily tasks to meet high-priority project milestones.
- **System Administration**: Managed development environments and data transfers using **Git**, **Terminal**, and system tools like **Diskpart** and **Robocopy**.

Education

Expected in 2027-10 **No Degree: Dedicated Self-taught Developer With A Focus On IT**

Nahda - Zarqa, Jordan

Accomplishments

- • Resolved complex UI/UX and logic issues through direct user testing and community feedback on various open-source projects.
- Optimized development workflows and project execution by implementing mind mapping techniques and utilizing Next.js for scalable web tasks.
- Supervised a team of 3 members and served as the primary point of contact for clients, ensuring all technical requirements were met and delivered on time.

Software

Web & Design: Next.js, React.js, UI/UX (Figma)

Average

Programming: JavaScript (ES6+), Python, Java

Very Good

Backend & Tools: Node.js, Git, GitHub, Discord API

Very Good

Systems: Terminal (CMD/PS), Diskpart, Robocopy

Very Good

Management: Project Planning, Mind Mapping, Client Relations

Advanced
